

PRESS RELEASE

Optics 1, Inc. (Safran) I-CUGR selected for USMC Sniper Range Finder (SRF) program

Bedford, New Hampshire, August 23, 2017

Optics 1, Inc. (Safran) announced today that its Integrated Compact Ultralight Gun-mounted Rangefinder (I-CUGR) has been selected by the United States Marine Corps (USMC).

The I-CUGR is a small, lightweight, and rugged weapon-mounted laser rangefinder with integrated illumination and aiming lasers that will give USMC the ability to quickly range targets without taking hands off their rifles --- providing more accurate first round hits.

"We appreciate the opportunity to continue working closely with the U.S. Marine Corps in providing the Marines with superior technology that provides precise and accurate targeting solutions," said Jose Andrade, Optics 1 Business Development Manager and a retired USMC Sergeant Major. *"The selection of the I-CUGR solidifies the confidence in our commitment to providing technologies that are light yet powerful and are critical to the success of the USMC's mission requirements."*

The I-CUGR has been designed by Optics 1 leveraging proven rangefinder technology from Safran Electronics & Defense. Production will take place in Bedford, New Hampshire at Optics 1. The initial order is for 315 units with deliveries beginning this year.

Optics 1 is a leader in the design, development, and manufacturing of integrated electro-optical systems and subsystems for defense and law enforcement agencies. Leveraging core competencies in electro-optics, day and night imaging, laser range finding, and digital magnetic compass technology, Optics 1 is able to provide exceptional electro-optical systems for warfighter and law enforcement missions. Optics 1 is a wholly-owned subsidiary of Safran Electronics & Defense.

Safran is an international high-technology group and tier-1 supplier of systems and equipment in the Aerospace and Defense markets. Operating worldwide, Safran has nearly 58,000 employees and generated sales of 15.8 billion euros in 2016. Safran is listed on the Euronext Paris stock exchange, and its share is part of the CAC 40 and Euro Stoxx 50 indices.
